WHAT WE OFFER

NXP Automotive will start a next **Leadership Trainee Program** in Germany and The Netherlands in September 2017. Trainees for technical and commercial roles will embark onto an exciting 2-year-program, comprising high-impact work in important projects, technical and professional training and ongoing exchange with top colleagues from around the world.

Interested?

WHAT YOU OFFER

You are a creative and engaging person who likes to convince others with your entrepreneurial behavior. You take initiative and responsibility for achieving top results. You have strong analytical and social skills. You have a masters degree with excellent results in Electrical Engineering, Physics or a Commercial study with a strong technical component.
