Introduction

The mX-BaseBoard is another new offering from NGX Technologies for use with mbed and LPC Xpresso boards. It can also be used with NGX mX-Stamp boards with controllers like LPC 2148, LPC 1768, LPC 1343 LPC 1114. Refer to the website for new stamp boards. mX-BaseBoard has various peripherals with configurable jumpers. Two 27 pin expansion dual row header connectors (P9-P11) and (P10-P12) (male-female, 100mil pitch) for simple connection .

Features

- 2x16 with contrast control & back light
- SD Card connector
- Power Jack
- Power Switch
- Reset Button
- ISP Button
- External interrupt Button
- Buzzer
- Audio Jack
- Ethernet Connector
- 20 pin JTAG header
- PS/2 keyboard
- VGA connector
- Serial Connector 0
- Serial Connector 1
- Preset for ADC
- On board EEPROM
- GPIO brought to male header pins

Note: Features are dependent on the stamp.

Modules and Jumpers Relationship

Jumper	Related Module	Usage
JP1	Buzzer	Connecting this will enable buzzer operation
JP2	UART1	Connecting this will connect Rx1 with Rx1
JP3	UART1	Connecting this will connect Tx1 with Tx1
JP4	Power supply 3.3V	Connecting this will provide 3.3V supply to board.
JP5	LCD Back Light	Connecting pin 1-2 Back Light continuously ON Connecting pin 2-3 Back Light under control of GPIO
JP6	Power supply 5.0V	Connecting this will provide 5.0V supply to board.
JP7	VBAT	Used to connect external VBAT

Variable Resistor Description

Resistor	Related Module	Usage
R19	LCD	Control LCD Contrast
R14	ADC	Varies input voltage for ADC input

Button Description

Button	Related Module	Usage
SW4	RESET	Used to RESET the board
SW5	ISP	Used to get into ISP mode
SW6	EXT. INT.	Used for external interrupt

Note:

The first pin will be marked with the arrow mark as shown in the picture.

Legal

NGX Technologies Pvt. Ltd. provides the enclosed product(s) under the following conditions:

This evaluation board/kit is intended for use for ENGINEERING DEVELOPMENT, DEMONSTRATION, EDUCATION OR EVALUATION PURPOSES ONLY and is not considered by NGX Technologies Pvt. Ltd to be a finished end-product fit for general consumer use. Persons handling the product(s) must have electronics training and observe good engineering practice standards. As such, the goods being provided are not intended to be complete in terms of required design-, marketing-, and/or manufacturing-related protective considerations, including product safety and environmental measures typically found in end products that incorporate such semiconductor components or circuit boards. This evaluation board/kit does not fall within the scope of the European Union directives regarding electromagnetic compatibility, restricted substances (RoHS), recycling (WEEE), FCC, CE or UL and therefore may not meet the technical requirements of these directives or other related directives.

The user assumes all responsibility and liability for proper and safe handling of the goods. Further, the user indemnifies NGX Technologies from all claims arising from the handling or use of the goods. Due to the open construction of the product, it is the user's responsibility to take any and all appropriate precautions with regard to electrostatic discharge.

EXCEPT TO THE EXTENT OF THE INDEMNITY SET FORTH ABOVE, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES.

NGX Technologies currently deals with a variety of customers for products, and therefore our arrangement with the user is not exclusive. NGX Technologies assumes no liability for applications assistance, customer product design, software performance, or infringement of patents or services described herein.

Please read the User's Guide and, specifically, the Warnings and Restrictions notice in the User's Guide prior to handling the product. This notice contains important safety information about temperatures and voltages.

No license is granted under any patent right or other intellectual property right of NGX Technologies covering or relating to any machine, process, or combination in which such NGX Technologies products or services might be or are used.

Disclaimers

Information in this document is believed to be reliable and accurate. However, NGX Technologies does not give any representations or warranties, expressed or implied, as to the completeness or accuracy of such information and shall have no liability for the consequences of use of such information.

NGX Technologies reserves the right to make changes to information published in this document, at any time and without notice, including without limitation specifications and product descriptions. This document replaces and supercedes all information supplied prior to the publication hereof.
